Comments

“ We remember Suzy from her high school years as our kids were younger but there at the same time. Our daughter, Andi, idolized her and hoped to be like her in sports and would comment on how nice she was to her even though she was an underclassman. Our son, Aaron, thought the world of her and always admired her kindness and so enjoyed her scense of humor. Our memories of her are always being acknowledged whenever we ran into each other. She will be sadly missed by all who knew her and now at peace from such a dreadful disease. Our sincere condolences to the family.
