“ Candace is/was and will always be my best friend! Her and Nicole. We have laughed, cried, peed ourselves.. (true story). Candace was beyond funny, charismatic, the clown of any moment. I find myself still doing things she did, making faces she made, saying silly phrases she did probably ever single day. My Grandad was a very serious man, never “laughed” ... but, Candace made him laugh. From skating to cheering, then coaching ... living together, working together. When we worked together at Chilis, EVERYONE wanted Candace to serve them. My heart hurts so bad, because I wasn’t able to be in her life like I wanted... for certain circumstances. But, GOD knows I wanted to be. I wish I could be at the service, but... I am still there for her. I am still having my own celebration of life for her. She was one of the most important people I will even have in my life and I will miss her everyday. But, I know how much she loves her mother and Pop and now she’s with them. I love you Candace!!! Don’t ever forget that.
