“ I too was a colleague of Charlie's at SITA, and learned so much from him during that time. My fondest memory is working very closely with Charlie on a major project with Aeroflot, which included a couple trips to Moscow, the last of which spanned a 5 week period. We worked hard and made lifelong friends during those trips. Na Zdorovie my friend!

“ Sorry to hear this sad news! I have known Charlie as a highly professional colleague, but also as a friend. I had the chance to work with him on occasions in Atlanta, but also welcomed him many times in Luxembourg. Eddi! Lucien

“ We just found out of Charlies passing and we're so very sad to hear. I met and began working with Charlie in 1977 at SITA. He was a wealth of knowledge and helped me in every way. Always calm, quite and a very dry sense of humor. I still picture him sitting at the computer keyboard, a cigarette in his mouth with about a half inch of ashes getting ready to fall. I wish I'd found out earlier and we would have definitely attended the services. Thanks for the memories Charlie. We had some fun times.

“ I have received your information about our Dear friend Charlie with too much sadness, even I had no contact with him for several years, he has been always in my mind ... and always remembering him when we have our "All time SITA friends' meeting" (normally in a bimonthly period of time) where former Santiago's SITA employees are joining to have a nice time (Drinks and Dinner). I cannot forget a man like him ... not too much words, but effective. A good partner and a friend, he never got mad, always smoking and smiling. I will have him in my prayers. Thanks for your message ... Very Best Regards ROBERTO

“ I was so saddened to hear of Charlies passing. I first met Charlie in 1970 when I started working at CCN (became SITA in 1976). We were developing the first automated reservation system for Southern Airways where Charlie worked. We would see Charlie almost daily until he finally came to work for us. He was so knowledgeable and he helped us all in understanding and developing that first reservation system. He was referred to as Mr Res by one our airline customers and he mentored many of us at SITA. He was a special person and was loved by everyone. He was always so cool and calm in any crisis we had with the system and believe me we had many back in those early days. I have so many fond memories of Charlie both in and out of the work place and he will be truly missed by many. My deepest sympathy and condolences go out to his family.

“ I am really sorry to hear about Charlie. He was really a great guy. I met him in 1988 when I started SITA. He had a huge wealth of information and was always available when I had a question (which was frequently). Such a nice and patient guy. He will be missed by all that knew him.

“ At SITA, I had the good fortune to work with and learn from Charlie, whom we affectionately called "Shump". Known at SITA for his knowledge and calm demeanor, customers and employees alike depended on him and called on him for assistance. Shump always made time to help and was a delight to work with. He will be missed.

“ I was so very sorry to hear of Charlie's passing. When I started at SITA in the mid 80's I knew nothing about the airline industry. I was in RES programming and had zero knowledge of the airline industry. When any of us had any question about how the functionality should work, Charlie was the guy with the answer, and it was always the correct answer. He was always very patient with me and was one of the nicest men I have ever met. Thankfully I was fortunate to have had lunch with Charlie and other friends a few months ago, and that will always be one of my fondest memories of him. He will really be missed by so many!!

“ Charlie was my mentor at SITA. He was full of knowledge and patience. Even to this day, I have not found a person who knows so much about the airline industry. He was so calm in some very trying situations. He will be missed!
