DR

“ Dear Mrs. Cole and Family, I wish to give my deepest sympathy to you and your family. I found out about Davids passing just a couple of days ago. I found this link so I thought I would drop you all a line. No one has to tell you what a great guy David was. I knew him from childhood and we became good friends in high school. We continued to be rather close into college. David and I worked together at least twice, once was for a considerable time for Joe and his partner as brick mason labors. David and I actually saw the first moon landing together at a job site! Imagine that. We had many good experiences together and went out often during the late 60's. David and I actually received our draft notices at the exact time and my brother Henry carried David and I to the Induction center on Ponce (the old Ford factory next to the old Sears, now lofts). David was in a different part of Ft. Jackson but I we managed to visit a couple of times during the summer of 1970. I too got a job with Southern Bell and would talk to David often about his experiences. It has been a long time since we last talked. I believe it was around 1991 or so. I will always remember David as a good friend, fun loving, funny guy with out whom my youth would not have been the same. Don Raper 248 Hoy Farms Dr. Madison, Ms. 39110 601-605-9778
