“ *Mark was certainly a person that made an impression wherever he was. If you were on the mat in a wrestle match the impression was a dent in the mat where he pinned you in seconds, if on the football field well you likely felt like you ran into the side of stone mountain, if you were just that friend standing beside him then you felt completely safe from the whole world. Family meant everything to him and his faith in God was well known to all that knew him. Whatever life threw at him he met the challenge with no fear. What an honor to be among those that got to spend years in school with him representing our PHS in the highest respected schools. Oh boy Mark now you are awarded the highest medals of all time. HEAVEN! RIP friend.*

“ Mark was my first love. my high school love. So many memories, flying kites at the farm, hanging out at the Johnsons, checking his weight during Wrestling season, going to the falls at Cochrans Mill. My class ring still has white paint on it from when he helped paint the Johnson's house. He used to come over and help with the little kids homework, usually math while I did the dishes after supper. So many memories.
