He was a master electrician and master plumber in the State of Georgia.

In 1980, Donald became the chief building official for the City of Newnan. He retired from the City of Newnan in 2001. During his tenure, he helped to facilitate the City of Newnan during years of tremendous growth and balanced that growth with conservation of three historic areas in the City of Newnan. He also helped to elevate the standards of building construction throughout the state and nation. He served on many committees with the Building Officials Association of Georgia. He was a past President of this Association. Donald also represented Georgia well with his involvement with the Southern Building Code Congress International and was further elected to the International Plumbing Code Council. “ Sarah,
Our thoughts and prayers are with you during this sad time. We have good memories of you and Don at the BOAG and SBCCI meetings. Don kept us laughing, didn't he. We remember so well our trip to Little Rock, Arkansas where we took a drive out of town. We laughed the whole way because of Don. He was such a good man and will be greatly missed. “ I was sorry to hear of Mr. McCarty's passing, I had seen him and talked with him at Alvalon some months back. I worked for the City of Newnan Building Department during his tenure, I was young and right out of college. He taught me quite a lot about Construction and gave me opportunities to do a lot of things and attend a lot of training. My experience there and with his recommendation opened doors for a vocational teaching career which I retired after thirty years of service. I would often call on him for various favors and code related questions over the years and he was always accommodating.

My condolences to his family.
