“ I like the AJAX format beettr, but the classic Joomla one is not bad. The controls need to be more nicely organized for people who are not familiar with managing lists and spreadsheets. The action of Add a New Obituary needs a really prominent button, and more instructive text with hover text instructions would be good too. Do you plan to make front end management of obituaries available to Joomla 1.5 as well, or just 2.5? I need this ability for a client's site.

“ We first met Hudon 19 years ago when he and mama became friends, and what an honor it is to have known such a kind, compassionate and caring man. He was a grandfather figure to Daniel and Heather, and what a positive influence he has made in their lives. We are blessed to have known Hudon, and thank you all so much for accepting us into your family so graciously. Hudon will be missed by so many, and especially by our family.
