“ I'm having a stiicac issue as well as bursitis but am managing to get my ribs close to the floor when attempting to flatten the wrists. the wrists won't flatten fully. I do have a posture/stress issue being behind a pc all day and I try to be aware of posture but that falls by the wayside in intense situations. Just got a new pc chair at home which does help me to sit straight but being tired in the evening allows me to slide down in the-position again. I watched your crossed leg stiicac exercise that I can do at work and will be trying it several times a day to do a piriformis stretch .

“ My prayers are with Mike, Casey and David. I grieve with you, but I am so happy for Tina-no more pain! I will miss her so much and it was my privelege to teach alongside of her the children that she loved so much. She impacted so many lives and New Hope is not the same without her joyful heart and laughter. So thankful she is with her Jesus who she loved so much!
