“ When I moved to Newnan in 1983, Dr.Cole was my choice for their doctor. I could always depend on him with all 3 of my kids. My son even went to him in his 20’s. He only trusted him. He was a wonderful man. I always knew he would make them better. There will never be another caring doctor like him.

DH

Dr Cole was a renowned trusted Pediatrician in the Newnan area. When my son was born via a scheduled C-section he was right there. I had chosen him bf the birth. After the surgery Ryan's breathing pattern was off which Dr Cole immediately noticed & rushed him up to the Neonatal unit. Thank goodness for his knowledge & caring nature. My son did develop asthma by a year old & we visited his office at least twice a week. His staff were amazing & welcoming as well. Ryan was Dr Cole's patient until he was 15yrs old. He gave me his home phone # as I'm sure he did for others but it made us feel special & anytime I called he always answered !
I, Ryan & my family are deeply saddened by the loss of such a brilliant mind bc they don't make them like Dr Cole anymore. Take your rest Sir you earned all the accolades that will be bestowed upon you. Seeing you @ Wesley Woods made my heart sing along w/ your kind wife. May your reward be plentiful bc you were a great steward of your chosen profession 🙏

“ Dr. Cole was my doctor (back in the original old medical building by Coweta General with the fountain in the lobby) and my daughter's doctor (in the new medical building on the opposite side of the hospital). He was old school and tough, but he provided the very best of care. I was terrified of going to see him because I knew he told the nurse to give me shots. My daughter was the total opposite, she lit up every time he came into the room. She understand he made her better. Although not my doctor when I was fifteen, he saved my life by having me transferred to Egleston Hospital in the middle of the night when they were just going to let me die here in Newnan. Rest in peace, Dr. Cole. I owe you everything.

“ All three of my children were patients of Dr Cole. I became aware of him in 1979 as my sister chose him as her daughters' Pediatrician. He certainly knew his stuff and I trusted him implicitly. I once took my three year old in with what began with a swollen knee, which he said he hurt on his bike. Xrays showed no break. Within a day or two his other knee became swollen and inflamed. All this time he would play a while and lounge a while. In the course of one day his hips became so painful he cried when picked up. Alarmed I scooped him up and even though it was Friday afternoon after 4, Dr Cole waited for me to bring him in. After doing a quick exam he was certain he had Rheumatic Fever! I was directed to take him to Newnan Hospital for an Echocardiogram to check for heart valve damage. So frightening! Thankfully Penicillin and Ibuprofen healed him nicely. He was very reassuring when moms got upset. I was the crying kind of upset. He also met me at his office one Sunday morning before Church to loan me a Nebulizer and meds because my newborn was having breathing issues. I will be forever grateful to him for the genuine concern and love for the generations of Newnanites he cared for. Thankfully my babies had the best care due in no small part to this son of Newnan who made children his business..his kind will never be again and will be sorely missed. Thanks Dr. Cole. For everything.

“ I was one of Dr. Cole's first patients when he started his practice. He is also the reason I'm able to walk today because he realized what was happening and got me the help I needed. Years later, when I had my son, I never even considered another pediatrician for him-it was Dr. Cole. He was an amazing doctor that helped so many children in his years of practice. My prayer for the family is that you find peace and know he was loved.

“ When my daughter was little, I found a knot on the back of her head. Dr. Cole and he wanted us to be seen at Children's Healthcare. The office got an appt the next week.

Dr. Cole called them HIMSELF & I heard him say "We can NOT let this mother worry about this for another week!" We saw them the next day & it was nothing, but I LOVED him from that day forward! Great man!

“ He was a part of our family for many years throughout my children’s life’s and grandchildren’s. He will always hold a special place in our hearts. He told it like it was. Many times he felt like a psychiatrist helping us raise our children. He was always there when you needed him.

My best friend and I have reminiscing all afternoon after seeing his passing. He was so special. The pictures he had in his office and his special staff. He will be missed. I can’t imagine having another Dr. like him to make such an impact on so many lives and children. All of you hearts and prayers go out to this special man we crossed paths with.
