MD

“ He was a part of our family for many years throughout my children's life's and grandchildren's. He will always hold a special place in our hearts. He told it like it was. Many times he felt like a psychiatrist helping us raise our children. He was always there when you needed him.

My best friend and I have reminiscing all afternoon after seeing his passing. He was so special. The pictures he had in his office and his special staff. He will be missed. I can't imagine having another Dr. like him to make such an impact on so many lives and children. All of you hearts and prayers go out to this special man we crossed paths with.

“ You photographed mine and Jo's houses on a snowy day a few years ago. ❤️
You called me to tell me that seeing my Christmas tree lights through my front made you happy. I admired you so, Dr. Chip.
